We have removed 713 barge loads of silt (4278 Cubic yards) so far this year. We will continue dredging operations until the end of October.
- We plan to bring the lake down 5 to 7 feet this winter for dock and shoreline work. The Valve will be opened between 15 and 30 November determined by the needs of the WRWSD. Please plan accordingly for getting your boats out of the water for the winter.
- The new Restrictive Covenants approved by membership vote has been recorded at the county Recorder's office.
- We removed 202 barge loads of silt (1,414 cubic yards of silt) in the month of September with a goal for the month of 220. We did really well running operations 20 days. We could only run 2 barges for 5 days due to a personnel shortage. We have removed 915 barge loads of silt (5692 Cubic yards) so far this year. We will continue dredging operations until the end of October.
- Our computer networks as of this meeting are back up and operating except for the following item. The online members portion of our website for bill pay and that has been delayed by the change over from Breyer cable to Spectrum. We plan to completely back to normal by the end of next week.
- Maintenance has taken down the pools for the winter. The contractor has completed the repairs to the Kiddie pool.
- Work on the 2023 budget continues with weekly meetings of the finance committee. With inflation running between 8 and 10% it is going to be challenging predicting cost for next year.

- The emergency fire gate being left open continues to be an issue. Chief Callahan will address this issue with the Russellville fire chief. The fire gate improvement project is on hold until this issue is addressed.

The LRPC and the Board committee prepared a guideline, Emergency Action Plan (EAP) in 2017. The report is located on the Lake Waynoka website. Under Documents, Public Safety/Misc, Emergency Action Plan. It is a comprehensive review of steps to take when an emergency might occur. Terry Borgman explained that we have three capital accounts: improvements, lake/dam and roads. There will be more information coming up as we meet with Mgr. Cahall to work on the 2023 budget. Mgr. Cahall said that, thus far, the Lodge replacement is in the fact-finding stage and that no decisions have been made concerning the Lodge.

She also said that the Rules and Regulations changes were posted in the newsletter. Mgr. Cahall said that the updated Restrictive Covenants can be picked up in the Office.
- Scott Harper – Made a suggestion to alleviate some of the dredging we have to do mainly at the northeast end of the lake. Installing a retention pond on the east side of Waynoka Drive will catch a lot of the silt before it ever enters the lake. President Beard asked Manager Cahall to look into it.

2022 WPOA Board Candidate Statements

The candidates were asked to respond to the following: How long have you been a WPOA member? What are clubs and committees that you have been involved in? What is your professional background and work experience? What are community issues that are important to you and how will you work with the Board to resolve them?

Rob Bynum

I have been a property owner for 7 years and full-time resident for the past year. From the first day my family and I became property owners, we knew this was where we wanted to build our lake home. My wife passed away 2 years ago and I honored her by building her dream home. Lake Waynoka is an incredibly special place for my family and I. I will diligently represent all WPOA members as I listen to their suggestions and address any concerns they may have. As a profession, I am the General Manager at National Heating and Ventilation Air Conditioning (HVAC), a major Cincinnati based HVAC company. I manage / supervise 65 employees running all company operations. The experiences and training gained through working at National Heating and Ventilation Air Conditioning will provide the skills necessary to communicate effectively, work in collaboration with all WPOA members and lead working teams to resolve lake issues. I strongly believe Lake Waynoka should be run more like a business and firmly believe I have the skills to significantly contribute and lead the lake to a stronger and brighter future. Members of the WPOA deserve and need transparency from the its board. I will be a strong advocate of that endeavor. As a homeowner, camper, and Campground Committee member, I will represent all property owners ensuring their voices are heard. It is extremely important to me to protect all properties values. As a board member, I will work diligently to protect all property owners' financial investment here at Lake Waynoka. Thank you for your consideration and I look forward to serving as one of your next Board of Trustee.

Sue Eads

My husband Scott and I will be property owners for 14 years, this October. We have watched our Lake Waynoka Community grow and change over the years. We are planning to be full time residents when we retire in the next 5-7 years and plan to put an addition on our house. We have a vested interest in the wellbeing of this community, future planning, and financial stability. My current professional role is Quality Management Systems Specialist for thyssenkrup Bilstein of America, Inc.

We make shocks for specialty 4x4 and lifted vehicles, and various motorsports teams. Previously I was Quality Manager for NN Inc., for 24 years, we were a metal stamping company which supplied components for the automotive industry up to including airbag components. I have written many policies and established processes for smooth operations to include preventative measures. A large part of my role has included APQP, Advance Process Quality Planning. If you have solid systems in place, and plan ahead evaluating all associated risks, you can have successful launch of projects. I am dedicated to represent the WPOA membership with honesty and transparency. I promise to listen to the stakeholders to provide support and aim for resolution of issues where all parties feel they have been fairly represented. I would appreciate your support and vote, as it would be a privilege to become a Trustee on the WPOA Board.

2022 WPOA Board Candidate Statements

The candidates were asked to respond to the following: How long have you been a WPOA member? What are clubs and committees that you have been involved in? What is your professional background and work experience? What are community issues that are important to you and how will you work with the Board to resolve them?

Kelly Faas

Paul and I have lived at Lake Waynoka 2 years in February 2023. We are members of the Civic Club. During my career, I have always served in administrative roles. As Emergency Management Coordinator at Marietta Memorial Hospital in Marietta, Ohio, I oversaw all emergency preparedness, 9/11 grant fund expenditures, and managed a decontamination team. I worked closely with the City of Marietta, Washington County, and State of Ohio agencies, as well as surrounding counties in SE Ohio to plan and implement all emergency drills. I would like to work with the Board to find a way to install a new fire gate - Or, to ensure that all emergency personnel has easy access to our current gate. It is extremely important that access is available to fire and first responders. This is not only important for response time, but also for our property owner's insurance rates. Prior to our having the existing gate, we were rated a "10." Now, we are rated a "9-10." Near the front gate, we are rated a "5", which is better, but the further the homes are from the front gate, the higher our rates are. It is imperative that we get our insurance rating down and improve our emergency access. We have too many lots that have been abandoned and unkept with various boats/trailers/etc. This leads to the devaluation of neighboring properties, weed growth, and general unsightly properties. I would like to work with the Board to establish new rules for the general upkeep of property to alleviate the continual decline of property values. If we do not establish rules now, we will continue to have the same complaints for years to come. When prospective home/property buyers visit our community, we want to impress upon them that we care about the upkeep of our property. We can no longer continue to allow properties to decline.

Todd Holt

I am asking for your vote to serve as your WPOA Trustee. I am a father of three, and like many property owners, my family and I enjoy all our wonderful community has to offer. My children and I enjoy watersports most of all. I'm an avid fisherman and try to participate in the bass tournaments when my schedule permits and will fight to keep this the best private lake in Ohio. I have extensive experience in Fire/EMS services, which include my current roles as a firefighter/paramedic, Assistant Fire Chief of Wayne Township and Deputy Sheriff of Adams County. In my previous term as your WPOA Trustee, I led the WPOA collaboration with the Township Trustees and the Russellville Fire Department in a successful effort to establish Russellville Fire/EMS Station #46 in Ash Ridge. This achievement improved the availability of critical emergency services to our members/guests and as a side benefit, lowered insurance rates for Lake Waynoka homeowners. There is so much more to do. Next step I would like to help with upgrading our EMS responses. I will also lead with clear communication and listening to our members concerns as well as being fiscally responsible. With your vote, I look forward to again serving the property owners of Lake Waynoka and continuing the work on improving our services.

What is your professional background and work experience? What are community issues that are important to you and how will you work with the Board to resolve them?

Sean Moore

My wife Stacey and I are homeowners and have owned property at the lake since 2019. After graduating high school in 1992, I went on to serve in the Army Reserves 1993-1999. Currently I work for Hamilton County Public Health as a plumbing supervisor. I also do all the plumbing inspections for Brown County Health Department. I have had the privilege of being a plumbing volunteer for Habitat for Humanity, a volunteer for Brown County 4H for 19 years, and a member of the Ohio Plumbing Association. At this time, I am Vice President of the WRWSD board and serve on the WPOA Building Committee. Last April I was appointed to the WPOA board and would like to continue my involvement in this community. With my experience I have a unique perspective to help our community on some of these uncharted matters as we move forward. I ask for your vote as I would like to see that our community continues to grow and prosper. I believe that I have the communication and skill set to assist in this growth. represent the WPOA membership with honesty and transparency. I promise to listen to the stakeholders to provide support and aim for resolution of issues where all parties feel they have been fairly represented. I would appreciate your support and vote, as it would be a privilege to become a Trustee on the WPOA Board.

James Prather

I have been part of the Lake Waynoka community for 45+ years. Growing up, I remember my parents taking us to our grandparents' home spending countless weekends and even entire summers here at the lake. Time spent with family and friends boating, fishing, swimming at the recreation center and eventually camping created countless outstanding memories for me. Because of those memories and life experiences growing up, I knew I wanted to become a property owner and did so in 2014. In 1982 I started and currently own a general contracting business specializing in home renovations. In those 40+ years, I have acquired the skills and management expertise necessary building a profitable business and currently employ 6 tradesmen. I also volunteer my time and expertise to many Lake Waynoka homeowners and campers. Community involvement is important to me and I've actively supported multiple lake functions and activities throughout the years. The annual Water Sports Club Poker Run, Waynoka Days and 5k Walk are but a few of the events I've supported. In addition, I've also been involved and contributed to many Lake Waynoka auctions and fundraisers. I am a member of the campground committee planning activities. I have organized and ran the camper crawl and the Trick-or-Treaters haunted house for many years. As with any entity, organization or business, there are issues and problems that need to be addressed and resolved ensuring their future viability. I will solicit and encourage all WPOA members to provide inputs/resolutions on current and future challenges facing our community. For my children, grandchildren and the entire WPOA community, I will tirelessly work with all Trustees and lake members for the preservation of the lake and all her amenities. Thank you for your time and would greatly appreciate your vote!

I am asking for your vote for WPOA Trustee. After graduating from the University of Cincinnati, I began my career selling HVAC/Generator Industrial equipment and recently retired. I enjoyed assisting my customers develop large-scale projects around these products. To be effective in recommending the best solutions to customers, I had to understand their requirements and capabilities, including purchasing, information technology, accounting, production and facilities management. Working together we were able to identify what works for everyone. As your Trustee, I have tried to use a similar process. I have always been easily approachable and open to talk with anyone, which I know by experience facilitates the open and candid communication necessary to understand a customer's expectations. As a Trustee, you the property owner, are my customer and I look forward to continuing to work together with you to develop strategies that meet your expectations. I have served as Member-at-Large on the Board and have actively participated as a member of the Finance Committee the last three years. I was appointed the Board Liaison to the Long-Term Planning Committee and actively participated in the workshops with volunteers to gather opinions on future facility needs. I have served as Board Liaison to the Building Committee and worked with this group to oversee the permit process and work with the Board when issues arose. Earlier this year I was appointed the Board Liaison to the Rules and Regulations Committee and worked to get the amendments to the Restrictive Covenants ready for the vote in the recent election. I look forward to working with members and the Board in the future and I would appreciate your vote.

James Siefert

I have worked in Transportation management for over 46 years which includes 37 years in upper management at Emery Transportation and Lykins Oil Company and am currently retired. I would like your vote to allow me the opportunity of adding your voice to the WPOA board. My wife Gail and I have lived at the Lake 2005 - 2007 and full time since 2020. We've seen a lot of growth since 07, which is good and not so good. The overall appearance of the homes and properties in 07 seemed neater and cleaner. The growth, while adding beautiful homes is also adding more issues. We have a "No Business" clause currently in the Code of Regulations, yet there are several businesses operating within the Lake. A "business" doesn't always require outside customer traffic. The growing number of "business equipment" is adding to a negative overall appearance. Our Lake Maintenance department is doing a very good job keeping up with their responsibilities, but as you tour the neighborhood there are more and more residents that are not maintaining their home. Equally important their yards are cluttered and unmowed. This is also a current requirement in the Code of Regulations. What I would like to do, for all to benefit is lend my voice to the Board. We need to get back to enforcing the Regulations that are in the books. Our Regulations are well thought out and attainable, but they have to be enforced. I'm sure it will cause discontent from the violators. We need to get back to being a residential community that cares about each other, by keeping up our properties and following the Rules that will benefit us all. Thank you for your time.
